

Attn:FCC

I choose to get my internet service from a LOCALLY OWNED and operated internet service provider in my home town.

I am currently displeased that it looks as if small internet service providers will be frozen out and replaced by large telephone MONOPOLIES.

It is my hope that the FCC will not allow smaller ISPs (and customers like myself) to be ignored and forced to become part of a monopoly I have no desire to be any part of.

I choose to support a local internet service in my home town because I choose to support my community. The opportunity I have to shop around my local community for the best price/best service keeps me feeling positive about the services I have purchased for myself.

I do hope that my choice on how to spend my money is as important to you as how the big phone companies spend their money...

Sincerely- Topaz Blair from Santa Rosa, Ca
